

### Excellent practice identified by

Some experiences science and ICT in nursery Italian school

### Associated with

nursery Italian school and SSIS

### Your contact information

Linda Giannini [calip@mbox.panservice.it](mailto:calip@mbox.panservice.it) and Carlo Nati [carlo.nati@istruzione.it](mailto:carlo.nati@istruzione.it)

### Resource name

- 1) I numeri dell'infanzia
- 2) Bambine/i: riflessioni dopo un incontro in chat 3d
- 3) Bambine/i, mondi virtuali e ICT

### - I numeri dell'infanzia-PREMA.pdf

### - Bambine/i riflessioni dopo un incontro in chat 3D

#### Resource type

We collect information on resources of several types. Some possible entries are:

- guidelines, tutorials, ... for teachers, policy makers, ...
- policies description
- scientific papers
- reports
- essays
- tools for teachers, policy makers, ...

report – scientific papers

#### Resource format

We collect information on resources that are available in various formats. Some possible entries are:

- article / tool on the website
- website itself
- Word / PDF file
- PowerPoint presentation
- Printed document (Book, Journal article, Leaflet)

You can see our work in all formats

**Resource language(s)**

Italian and English

**Short description**

The experiences highlighted are part of interdisciplinary courses tailor made for children, and vary from maths, to scientific experiments up to online 3D interaction.

**Supporting evidence**

The experiences here mentioned are already part of courses and are part as well of normal school practice. They have been introduced as scientific contributes, workshops, meetings, round tables, becoming thus a point of meeting-comparison among different methodologies. Others are inedited and in italian; they could be, upon request, be published in English.
